AT&T has recently made a significant investment of \$100,000 that will support technology for the community through a new Center initiative.

AT&T's support will provide the Center with a user-friendly website and mobile access, building-wide Wi-Fi and broadband Internet, plus a technology upgrade that will improve the organization's computer access in its CyberCenter.

The Center's Executive Director Rebecca Rolfe said, "The Center is so pleased to celebrate AT&T's investment in the community. Their support is a perfect example of how corporate partnership with the Center can help connect our diverse community to opportunities, resources and each other to achieve our vision of a stronger, healthier, and more equitable world for LGBT people and our allies."
